

Simplifying
complexity

BOOK 2026

SÃO PAULO • RIO DE JANEIRO • BARUERI

**Hello,
we are Corp.**

**We simplify complexity
to drive business forward.**

We are a fully integrated corporate services platform that connects people, processes, and technology to help businesses operate smarter, strengthen governance, and unlock sustainable growth.

We bring together leading organizations that specialize in accounting, finance, taxation, valuation and technical reports, financial modeling, M&A, paralegal services, payroll, benefits, compliance, data processing, statutory accounting (regulated by the Brazilian Central Bank and the CVM), as well as ESG, to deliver a seamless ecosystem of corporate solutions in support of strategic, operational, and regulatory challenges.

Who We Are

CorpServices Group was built through the strategic integration of highly respected companies recognized for their technical expertise and leadership in the corporate services market.

Backed by global investors and driven by an integrated business vision, we have created a unique platform that combines deep expertise, innovative technology, and personalized service within a seamless ecosystem of solutions.

**We simplify complexity to
drive business forward.**

What Sets Us Apart

At CorpServices, we combine technical excellence, strategic insight, and integrated solutions that empower organizations to operate with greater efficiency, security, and intelligence.

By connecting diverse areas of expertise within one integrated ecosystem, we deliver greater operational fluidity, agility, and technical depth to organizations of all sizes and across a wide range of industries.

Supported by advanced technology, structured processes, and highly qualified teams, we translate complex challenges into scalable solutions that empower businesses to grow.

**We Integrate
Solutions.
We Deliver
Results.**

TECHNICAL RIGOR. STRATEGIC VISION. MORE RELIABLE DECISIONS.

We support organizations across a wide range of industries and sectors, as well as shareholders, investors, funds, and managers, leveraging specialized expertise and coordinated execution to support operations of varying levels of complexity.

Explore the services that can unlock new opportunities for your business and accelerate your plans.

For Your Business

Integrated corporate solutions designed to simplify routines, reduce operational demands, and help businesses operate with greater efficiency, security, and intelligence.

Accounting, Tax & Human Resources

Specialized accounting, tax, payroll, and labor-related management services that ensure organization, compliance, and efficiency in day-to-day operations.

Statutory Accounting & Tax

Specialized accounting, tax, and financial services for organizations regulated by Bacen (Brazil's Central Bank) and CVM (Brazil's Securities and Exchange Commission), fully aligned with the requirements of Brazil's financial and capital markets.

Tax Advisory & Specialized Consulting

Strategic tax planning, management, and advisory services that support decision-making, mitigate risk, and identify opportunities for greater tax efficiency.

Social Security & Tax Reform

Technical and strategic support to help organizations prepare for regulatory changes through assessments, impact analyses, and recommendations focused on adaptation and efficiency.

Financial BPO

Structured financial management solutions that strengthen controls, improve operational workflows, and streamline accounts payable and receivable processes delivering greater organization and predictability.

Paralegal

Agile and specialized support for corporate, regulatory, real estate, and certification processes, simplifying complex administrative tasks with security and precision.

ESG

Environmental governance and compliance solutions supported by independent verification and full traceability to help organizations meet PNRS (National Solid Waste Policy) goals.

Consulting, Forensic Accounting & Arbitration

Specialized consulting, forensic accounting, and technical assessment services that support strategic decision-making, corporate reorganizations, and conflict resolution.

Valuation & Technical Reports

We perform valuations of the economic and financial aspects of business organizations, including equity interests, assets, liabilities, and financial instruments. Our analyses consider historical performance, cash-generation capacity, growth prospects, capital structure, risks, and market conditions.

ICVM 579 (Fair Value), CPC 01 (Impairment), CPC 10 (Stock Options), CPC 15 (PPA), and fair value of assets and liabilities.

Financial Modeling & Strategic Analyses

We develop and review integrated financial models to anticipate impacts, compare scenarios, and support decisions related to growth, investments, and financing arrangements. Our models combine operational, financial, and market assumptions to assess how different strategies may affect an entity's results, cash flow, liquidity, and execution capability.

The analyses cover financial and corporate planning; short-, medium-, and long-term projections; drafting and reviewing budgets; scenario, sensitivity, and stress testing analyses; capital structure analyses; cash requirements and liquidity planning; investment and expansion project analyses; drafting fundraising initiatives; assessing the financial impacts of acquisitions; monitoring planned versus actual performance; and preparing presentations for shareholders, members of management, investors, and financial institutions.

M&A Advisory

We advise on buy and sell side transactions, combining financial rigor, market knowledge, and strong negotiation skills. We operate throughout the entire transaction cycle: from defining objectives and preparing the company to structuring the deal, conducting due diligence, negotiating terms, and transaction closing.

For You

Specialized solutions designed to support individuals, families, and wealth structures with security, transparency, and an integrated approach.

We operate across tax, estate, and succession matters with discretion and technical depth, integrating personal tax obligations, international assets, offshore structures, and wealth planning into a clear and structured framework.

Individual Income Tax (IRPF) & Personal Tax Compliance

We help individuals handle their tax obligations with greater organization and confidence.

Our services include preparing and reviewing Individual Income Tax (IRPF) returns, tax calculations, investment income and capital gains, and supporting clients in addressing matters with the Brazilian Federal Revenue Service, providing guidance tailored to each wealth profile.

Offshore Structures & Foreign Assets

We assist clients in managing offshore structures and foreign assets with organization, security, and specialized technical oversight.

Our services cover tax compliance, international accounting, and wealth organization, helping clients meet both domestic and international requirements with greater clarity, control, and confidence in managing their global assets.

Wealth, Succession & Family Office

Our integrated, discreet, and technically driven wealth planning, succession planning, and family office services are designed to help organize assets, ownership structures, and family decision-making with greater clarity and a long-term perspective.

Our approach connects governance, taxation, and wealth organization to provide the strategic support, continuity, and security needed to preserve and transfer family wealth.

Corp Brands

CorpServices brings together companies with proven track records and complementary areas of expertise to offer an integrated corporate services platform, creating an ecosystem designed to address the growing complexity of back-office operations, governance, and business administration.

Together, our brands enhance our ability to deliver comprehensive corporate solutions that are closely aligned with clients' real-world needs and supported by trusted partnerships, security, innovation, and technical excellence.
